

## COVID19 Precaution

Dear patient/client,

I am excited to let you know that this plague finally has slowed down and we can finally go back to our normal daily activities using extra mindfulness.

1. Moving forward, we highly ask everyone to be respectful to one another by taking extra preventative measure and prevent ourselves from getting infected.
2. If you are feeling sick even a slight sickness, please inform me as soon as possible. I will do the same if I do not feel well. Always remember that we as the healthcare provider are honored to provide care for you if you are not contagious.
3. Please always practice social distancing at least 6 ft apart.
4. Please wait in your car until your appointment time as our space inside the clinic is very limited.
5. When you arrive inside the clinic, please wash your hands.
6. Please have your mask on as necessary. You can wear your mask during treatment if needed.

Thank you for your cooperation and I wish you a great health amidst this health crisis.

GOD BLESS US EVERYONE!

Narilyn Baylon
